

LEAGUE OF NATIONS L BE PUT INTO OPERATION SOON

First Meeting Awaits
Publication of the
Ratification.
U. S. CANNOT
PARTICIPATE

WASHINGTON, October 16.—The no official declaration can be made in advance of the action of the senate on the treaty of Versailles, it was learned unofficially today that plans were being made for bringing the league nations into existence almost immediately upon the publication of the ratification of the treaty by Great Britain, France, and Germany, which will take effect.

Under the United States constitution, the league's work it is understood that the decision has been reached to have President Wilson issue a call for the first meeting of the council of the league within the fifteen day period provided in the treaty for the ratification of the treaty by the council of the league. The president's call is to determine the boundaries of the league. The article five of the covenant provides that decisions of the council shall require the agreement of all of the members of the league represented at the meeting. It is held here that this does specifically require the attendance of an American member to give such decisions.

Commissions Can Act.
Less than fifteen commissions created by the peace treaty to require American participation and certain plebiscites in the various territories also are to be decided under a joint international control. The present view of officials here however is that representatives of Great Britain, France, Italy and Japan whose ratification of the treaty is expected daily will in these matters without challenge of the legality of proceedings on account of the absence of the American representatives.

Plans for the inauguration of the league were discussed by A. M. House during his recent stay in England, and he is understood to have pursued the work as far as he felt warranted. The advance of the action of the league on the treaty. It also is understood that quarters for the league secretariat in Geneva tentatively have been obtained and believed to have arranged with representatives of other nations a tentative program for the first meeting of the league.

Colonel House's health permits he is expected in Washington next week and it will then be order to frame the call for the first meeting of the council of the league which President Wilson's officials are expected to permit to sign.

Must Appoint Commissioners.
In the view of officials here the first meeting of the council must arrange for the appointment of the various commissions and the plebiscites described in the treaty but aside from that its proceedings are expected to be limited. Later on if this stage is safely passed and a senate shall have consented to the ratification of the treaty, the president will issue a call for the first meeting of the assembly of the league which will be in Washington, some time early next year.

Under pressure from Washington and with the approval of the American delegation in Paris the proceedings of this government conference in Paris is rapidly drawing to a close. Unless there are untoward developments, officials here believe it will be possible to have the delegation to wind up its work within a month. The secretary of state has today acted upon questions submitted from Paris for a decision by the administration. None of these questions really present new features except in small details and the president already has determined the position of the American government upon the large principles involved and known his views to the cabinet members concerned. This is the truest of the ratification of the German treaty and completion of the Austrian-Austrian treaty for these are only countries with which America actually went to war. The department officials expect

FITZGERALD MUST HANG TODAY

CHICAGO, Oct. 16.—Thos. Fitzgerald, sentenced to hang tomorrow for murdering Janet Wilkinson, a child, tonight gave up all hope of commutation of his sentence and gave out a statement saying: "I am not afraid to die. My peace is made with God." His wife failed in a final attempt to save his life today when Judge Kenesaw M. Landis, in federal court, denied her petition for a writ of habeas corpus. Fitzgerald was visited tonight by his wife and two sisters. They bade him good-bye and left him at 9 o'clock. Permission to witness the hanging was denied J. S. Wilkinson, Janet's father, today. The chief deputy sheriff's office has received hundreds of requests for permission to witness the hanging.

President Has Another Good Day Of Rest

WASHINGTON, Oct. 16.—Further indication of the steady improvement in the condition of President Wilson who today entered the fourth week of his illness was given tonight in the statement by white house officials that the vote on the Shantung amendment to the peace treaty was completed by the council of the league. The president earlier in the day it was learned, was advised that an important vote in the senate peace treaty controversy was near. As the news did not seem to worry him, Rear-Admiral Grayson, his personal physician, gave permission for the sending of the vote to the sick room when recorded.

Secretary Tumulty received the news of the vote at the white house immediately after announcement by the senate tellers and sent it to the president's room, where it was given to him by his nurse, Mrs. Wilson having left his bedside for a few minutes. "The White House, 11:55 a. m., Oct. 16, 1919."

"The discomfort which the president suffered for two days has been relieved to a very great extent. He had a good night. His temperature, pulse, respiration and kidney function continue normal. (Signed) 'Grayson, 'Ruffin, 'Stitt.'"

TYPHUS EPIDEMIC THREATENS SIBERIA

Says Report From Member of Red Cross Mission to That Country.

Omsk, Tuesday, Sept. 9.—Siberia is threatened with great typhus epidemic, according to reports received here from Col. Rudolph Hailing Tausler, former director of St. Luke's hospital, Tokyo but now a member of the American Red Cross, who, with a party of the Red Cross has been in Western Siberia for six months.

The cases of typhus among Siberian troops since January 1, according to Dr. Tausler have aggregated 120,000 and since July 1, 40,000. New cases now number thousands daily. All the resources of the disinfection hospitals are overwhelmed and the fever is rapidly spreading among the healthy soldiers and the civilian population of western and middle Siberia. Dr. Tausler says the pressure of refugees fleeing from the Bolsheviks in July, August and up to the present time in September has overcrowded all the towns from Omsk eastward, that a countless number of persons are living in fields and that the situation indicates privations and deaths in greater number than last winter. Near Omsk, according to Dr. Tausler, 30,000 persons are actually without shelter. Winter is approaching and thousands of them are digging holes in the ground in order to escape freezing to death.

OVERSEAS DEPARTURE OF BOXERS DELAYED

New York, Oct. 16.—Members of American amateur boxers which was to have sailed today for Copenhagen have been delayed until next Tuesday, the Amateur Athletic Union announced tonight. They are Ashton Donze, New Orleans, 155 pounds; Frank Cassidy, New York, 135 pounds; and Edward Burke, Pittsburgh, 175 pounds. The men will first meet the champions of Copenhagen in special bouts early in November. Later they will participate in an open tourney and then take part in tournaments scheduled in Christia, Norway and Gothenburg, Sweden.

LABOR DELEGATION MAY WITHDRAW FROM CONFERENCE

Disagreement Comes
Over Collective Bargaining Resolution.
MANY APPEALS
ARE MADE

WASHINGTON, Oct. 16.—Recognition of the right of collective bargaining came before the national industrial conference today and was debated for three hours. A vote was impossible as the conference had to adjourn at 5:30 o'clock under its rules. Virtual notice was given by members of the labor group that should the representatives of capital succeed in their attempt to send the resolution back to the committee of fifteen, the labor delegation would withdraw.

The collective bargain resolution providing for an endorsement of the right of wage earners to negotiate with employers through representatives of their own choosing was reported to the conference when it met at 2:30 o'clock with the approval of all of the public and labor delegates in the committee but opposed by the representatives of capital.

Rockefeller Talks.
Realizing that the conference faced the likelihood of dissolution unless an agreement could be reached on the issue of collective bargaining, members of the public group directed appeals to the employers in an effort to win them over to the resolution. Leading in this effort was John D. Rockefeller, Jr., who pleaded for a "new spirit in industry with universal recognition of the right of representatives," by workers, who he added, really sought "not higher wages, but recognition as men."

"What joy can there be in life, what interest can a man take in his work, what enthusiasm can he be expected to develop on behalf of his employer when he is regarded as a number on a payroll; a cog in a wheel, a mere 'hand'?" he asked. "Who would not earnestly seek to gain recognition of his manhood and the right to be heard and treated as a human being and not as a machine?"

Mr. Rockefeller was joined by H. B. Endicott, a shoe manufacturer and member of the public group who spoke, he said, as "one of the largest employers in the country and the largest employer of labor in his line in the world." Adding to support given the resolution were Gavin McNab of San Francisco; Paul L. Feiss of Cleveland; John Spargo of New York and Charles Edward Russell of New York, all members of the public group.

Morrison Takes Up Issue.

Frank Morrison, taking up the issue for the labor delegation dealing with the employers with the challenge that they could not deny nor interfere with the right of bargaining through chosen representatives, which he said had been accorded by such agencies as the war labor board and the railroad administration and was accepted generally in Great Britain, Germany and other countries.

The arguments of the public and labor delegates were countered by Frederick P. Fish of Boston, chairman of the national industrial board, with a defense of the open shop and an insistence that the correct place to work out relations between employer and workers was in the individual establishment. He concluded his argument by presenting a motion that the resolution be referred back to the central committee, but adjournment time came before a vote could be taken.

Mr. Fish's motion to recommend the resolution—a motion which perhaps involves the future of the conference—will be the order of business when the delegates meet at 9:30 o'clock tomorrow morning. Members of the central committee were emphatic tonight in their assertion that the committee would not be disposed to consider amendments to the resolution if recommended and that so far as the committee was concerned the proposal would stand until it was accepted or rejected by a vote of the conference. As the situation stood at adjournment tonight, there was every indication that the measure if brought up for a vote tomorrow would receive the approval of the labor and public groups but would be bitterly opposed by the employers. Under the rules of the conference, lack of unanimity among the three groups would defeat the resolution.

LONG TIME MAYOR OF WAUKEGAN DEAD

Waukegan, Ill., Oct. 16.—W. W. Pearce, 58 years old who served 10 years as mayor of Waukegan died here today after a long illness.

Condensed Telegraphic News

CHICAGO, Aug. 16.—Shoe prices will remain high according to predictions made at the National Conference of Tanners here today. A letter from Fred A. Vogel, president of the tanners' council, was read in regard to the leather situation in Europe. He said he found conditions more serious than he had anticipated.

BARNES OPPOSES EFFORT WILL BE
GUARANTEED PRICE MADE TODAY TO
ON WHEAT CROP SETTLE STRIKE

CHICAGO, Oct. 16.—Julius H. Barnes, United States wheat director, gave public notice tonight that he would oppose any attempt to extend to another crop the present government policy of a guaranteed price on wheat.

The announcement was made at a dinner in his honor given by the directors of the Chicago board of trade. Two hundred leading men in the Chicago grain trade and banking community were present at the dinner and before Mr. Barnes' address his conduct of affairs of the United States grain corporation were highly praised by L. F. Gates, president of the Chicago board of trade and by Geo. M. Reynolds, president of the Continental-Commercial National Bank. Mr. Gates also read a telegram from Herbert Hoover, U. S. Food Administrator which read: "Julius Barnes finely represents the highest type of service to his country that I know of and if we had a hundred Barnes' in public positions, we would sanely solve every problem with which we are confronted in this country."

ALBERT AND PARTY TAKE LONG RIDE

YOSEMITE, Calif., Oct. 16.—(By the Associated Press.)—King Albert of Belgium and his party left Glacier Point this morning for a long horseback ride to the Mariposa Grove of Big Trees where luncheon was served around a huge camp fire. The return trip to the special train at El Portal was made by automobile. The special train is due at Los Angeles at nine a. m. tomorrow. It is probable that the party will motor from there to Pasadena to take the train. The next important stop will be Gallup, N. M., where a cowboy and Indian show will be staged for the royal party on Sunday morning.

FIRE DESTROYS SEVENTY COTTAGES

MINNEAPOLIS, Oct. 16.—Fire, starting in a summer home destroyed seventy cottages at the Methodist assembly grounds, Groveland, Lake Minnetonka, early this morning. Four persons, two of them children, seriously burned in escaping from their homes, were brought to Minneapolis hospitals. One hundred persons, many only partly clad, were brought here and housed in hotels.

Owing to the lateness of the season, few of the houses at the Methodist assembly grounds were occupied.

BERLIN, Oct. 16.—(By the Associated Press.)—The German government's reply to the demands of the allies concerning the evacuation of the Baltic provinces has been handed to Marshal Foch. The reply points out that General Von der Goltz, the former German commander in the Baltic region, has been recalled and replaced by an army like intentions by Germany against either the Lettish or Russian peoples.

It adds that the German government has strictly forbidden German soldiers to enter Russian units.

LONDON, Oct. 16.—(By the Associated Press.)—General Yudenitch, commander of the Russian northwestern army, has captured Gatchina and is victorious in advancing towards Krasnoye Selo and Tsarskoe Selo, 18 and 15 miles from Petrograd.

HELSINGFORS, Oct. 16.—The Bolsheviks are evacuating Petrograd because the troops are unwilling to fight, according to a message received here today.

TOPEKA, Kans., Oct. 16.—Universal military training thru the national guard organizations and an independent staff of national guard officers at Washington to handle guard organizations, are among the subjects to be taken up next Monday at St. Louis, Mo., a meeting of the adjutants general called by Adjutant General Charles I. Martin of Kansas, president of the association. General Martin made the announcement today. The executive committee of the national association will also hold a meeting at St. Louis on Monday.

WASHINGTON, Oct. 16.—Secretary Wilson it was said today at the department of labor, will have no special plan to offer as to adjustment of the controversies between bituminous coal miners and operators tomorrow when John L. Lewis, acting president of the United Mine Workers of America, and Thomas J. Brewster, president of the coal operators' association, meet with him here in an effort to avoid the strike called for November 1 in the central competitive fields.

The policy of the labor secretary it was said will be to bring the leaders of the two opposing factions together thru conciliation of their disagreements, as developed during the conference. Based on successes in adjusting disputes between miners and operators in the past, officials said today there was a well-grounded belief that the strike would be averted thru the conference. As a basis for their belief, they cited the threatened strikes in the central Pennsylvania fields and in Alabama, in 1917, as showing the success of the secretary of labor's method of bringing miners and operators together in conference. In the case of the Pennsylvania miners the strike was averted by what was known as the "Washington agreement," evolved by the secretary and representatives of the miners and operators and ratified by the miners in convention at Dubois, Pa.

RUNAWAY ENGINE STOPPED NEAR VIRDEN

SPRINGFIELD, Ill., Oct. 16.—Without a crew to guide it a Chicago & Alton engine left the yards at Ridgely near here at 10:30 o'clock tonight and rushed over a clear track thru this city on a precipitous flight south toward Virden. Both the engineer and fireman were thrown from the cab of the engine by an explosion. Then, without anyone to pilot it, the engine started its runaway journey from the shop yards.

According to E. J. Christopher, third track operator at the Burlington depot, who got into communication with the Alton locomotive man Girard, the runaway engine came to a stop about three miles south of Springfield.

GIVES UP \$10,000 JOB FOR PULPIT

CHICAGO, Oct. 16.—Rev. S. B. Edmondson, \$10,000 a year district manager for an insurance company for the past three years, will assume the pastorate of the Forest Methodist church at \$2,500 a year, according to announcement today. "There are some things better than gold," he explained, adding that he was hurt to see so many ministers dropping their church work for the better paying business world.

WARNS WOMEN AGAINST BOLSHIEVISM

St. Louis, Oct. 16.—David R. Francis, American ambassador to Russia, addressing the Missouri Woman's Suffrage association here today, declared he had learned that many women in this country were advocating Bolshevism and warned the women against it.

THE SHANTUNG AMENDMENT TO TREATY DEFEATED

Final Vote Comes
After Long and Bitter
Debate.

ROLL CALL 35-55 AGAINST

WASHINGTON, Oct. 16.—The senate today voted down the amendment to the peace treaty under which German rights in Shantung would revert to China instead of to Japan. The vote on the amendment, which had been presented by chairman Lodge of the foreign relations committee, was 35 to 55. The vote on the long debated Shantung amendment, presented by Senator Lodge and approved by the foreign relations committee showed that fourteen Republicans swung over to the pro-treaty forces, while three Democrats lined up with those supporting the proposal. Of the six senators absent two Republicans were put on record as in favor of the amendment and one Republican and three Democrats as opposing it.

Follows Hot Debate.
The roll call which came at the end of another six and a half hours of sharp debate in reality swept away six amendments instead of one, each change in the treaty text having been numbered separately by the committee in its decision to strike out the word "China" and substitute the word "Japan" by unanimous consent, however, the six changes were debated and voted on as one.

Only three of the committee's 45 amendments now remain to be acted on by the senate, 36 previously having been rejected. Of those remaining, one relates to American representation on the reparations commission and two on equalization of voting power in the league of nations assembly.

The Final Vote.

The vote in detail follows:
Republicans:—Ball, Borah, Brandegee, Calder, Capper, Curtis, Dillingham, Fall, France, Frelinghuysen, Gronna, Harding, Johnson, (California); Newberry, Norris, Page, Poore, Shipp, Thayer, Sherman, Sutherland, Wadsworth, Warren and Watson.—32.
Democrats:—Gore, Reed and Walsh (Massachusetts).—3.
Total for adoption.—35.
Against adoption:
Republicans:—Coff, Cummins, Hale, Kellogg, Kenyon, Keyes, Lenroot, McCumber, McNary, Nelson, Smoot, Spencer, Sterling, and Townsend.—14.
Democrats:—Ashurst, Bankhead, Beckman, Chamberlain, Culberson, Dial, Fletcher, Gay, Gerry, Harris, Harrison, Henderson, Hitchcock, Jones (New Mexico), Kendrick, King, Kirby, McKellar, Myers, Nugent, Overman, Owen, Phelan, Pittman, Pomeroy, Ransdell, Robinson, Tamm, Shields, Simmons, Smith (Arizona), Smith (Georgia), Smith (Maryland), Stanley, Swanson, Thomas, Trammell, Underwood, Walsh (Montana), Williams and Wolcott.—41.
Total against adoption.—55.
The six senators absent or paired were:
For adoption:—Fernald, Republican, Maine, and Elkins, Republican, West Virginia.
Against adoption:—Edge, Republican, New Jersey; Johnson, Democrat, South Dakota; Martin, Democrat, Virginia, and Smith, Democrat, South Carolina.

Lodge Has New Plan.
After the vote was completed Senator Lodge announced that later he would move to strike out the word "Shantung" and insert "Japan." Notice also was given by a number of the Republican senators who opposed the committee amendment that they would present reservations dissenting from the Shantung award.

More than twenty senators took part in today's debate, extended speeches being made for the amendment by Senators Johnson of California, Sherman of Illinois, and LaFollette of Wisconsin, Republicans and against it by Senators Phelan of California a Democrat, and McCumber of North Dakota, Republican. Senator Williams, Democrat of Mississippi injected into the discussion a bitter denunciation of the attitude of some Irish-Americans, and sharp replies were made by Senators Phelan and Gerry, Democrats of Rhode Island.

After the roll call a few minutes was devoted to the formal reading of the long treaty text, and the leaders expect to continue the task tomorrow.

The general prediction was that a vote on the remaining amendments would not be reached before the middle of next week.

SHERIFF PREVENTS LYNCHING

NEW LONDON, Mo., Oct. 16.—A mob armed with shot guns and ropes was prevented from lynching Charles Day, an 18 year old negro late today by Sheriff Thomas Clark, who secreted the negro in an automobile and took him to Hannibal, ten miles north of here.

The negro is alleged to have assaulted Mrs. William Stout, wife of a wealthy farmer by whom he was employed. The negro was arrested late today and Sheriff Clark was preparing to take him to the jail here when the mob which had been forming appeared. Feeling is running high among the whites and local officials are endeavoring to prevent an outbreak against the negroes. It also is rumored the negro element is organizing. Day is in jail at Hannibal.

Seeks U. S. Help To Gather News From the Orient

CHICAGO, Oct. 16.—Newspaper publishers of the middle west attending a joint meeting of the Inland Daily Press association and the Illinois Press association today adopted a resolution urging the assistance of congress in providing better cable facilities for news service across the Pacific Ocean between the United States and the Orient.

The resolution adopted read as follows:
"The Inland Daily Press association, composed of leading daily newspapers in thirteen central states in convention assembled urges upon the members of congress the advisability of increasing the facilities for news service across the Pacific Ocean between the United States and the Far East. We believe that daily interchange of news is the most effective way of preventing misunderstandings, both here and there, which will seriously injure American interests and may lead to grave complications."

"The federal government recognized this necessity and partly filled the wants so long as it had authority under war legislation by distributing thru the navy radio stations a brief daily news report by the committee on public information. We believe that the proposed establishment of an independent and adequate news service between this country and the Far East can be best secured and maintained by providing the necessary radio facilities for news messages across the Pacific without word limit and allowing American news associations and individual newspapers in cooperation with newspapers of the Far East to cover the news field."

It is urged further that the use of naval radio stations be authorized for the purpose and at the rate named as provided in the Curry bill until such a time as congress shall decide—if it does so decide—to turn back the wireless transmission of commercial and news messages to private corporations.

F. D. Mann of Devil's Lake, N. D., president of the North Dakota Retail Merchants' Association attributed his success in conducting a department store in a small city to newspaper advertising.

OFFICIALS CLAIM STEEL STRIKE ENDED

Surplus of Help is Reported in Some Branches of Great Gary Mills.

Chicago, Oct. 16.—Steel mill officials at Gary, Ind., today expressed the opinion that the strike was virtually ended and made preparations for building up a new organization. They declared there was a surplus of labor in some departments. Union leaders disputed the accuracy of the claims made by the steel officials. They also began an effort to establish the independence of the union forces from the radicals.

Major Thomas B. Crockett, head of the local branch of military intelligence is in Gary making a thorough investigation of the alleged radical plots. He is said to have been detailed to make an investigation following an appeal by organized labor to Secretary of War Baker to send a personal representative into the Gary region.

John Fitzpatrick, chairman of the National Steel Strike committee declared that the reports that "radicals are running the strike are absolutely untrue. He also said that 95 per cent of the men arrested were former steel mill employees who were discharged because of their activities in the union.

FLYING PARSON IS STRANDED IN NEBRASKA FIELD

Crank Shaft in Motor
Breaks—Flyer Uninjured.

WILL RESUME FLIGHT TODAY

CHICAGO, Oct. 16.—Lieutenant B. W. Maynard, first to complete the initial lap in the army's transcontinental reliability air race and first to take off "the second lap" was stranded tonight in a corn field near Wahoo, Neb. The "flying parson" is not out of the race, however. Aid is being rushed to him and he hopes to keep the lead over his nearest competitor, Lieutenant Alexander Pearson, who rested tonight at Cheyenne, less than 450 miles behind him. Captain J. O. Donaldson is only 136 miles further west at Rawlins.

Lieutenant Maynard coasted into the corn field today with a crank shaft in his motor broken. Officials at first declared him out of the race, but later gave him permission to continue. A Liberty motor from the wrecked Earlton Bomber, piloted by Captain Roy Francis, is being rushed from Yutan, Neb., to replace Lieutenant Maynard's motor. He hopes to continue his flight to Mincola on Friday.

Other contestants continued to wing their way across the continent. Three landed today at San Francisco, making a total of thirteen to complete the westward flight. Seventeen others are still struggling toward the Golden Gate most of them being in the Rocky Mountain region. There were no new arrivals at Mincola. Six have completed the westward flight.

Behind Maynard and Pearson in the eastward flight today was Captain J. O. Donaldson, who landed at Rawlins, Wyo., at 5:33:50 while Lieutenant Earl Mayzelman and Major Henry Smith took off from San Francisco today. Major Smith's machine was wrecked at Fernley, Nevada and he retired from the race. The fliers making the return trip from Mincola to the west made no progress today.

Major Carl Spatz was held at Buffalo, N. Y., on account of bad weather. Captain Lowell Smith, whose machine burned at Buffalo last night, was authorized tonight to continue in another plane, and he will probably resume the race tomorrow.

Lieutenant Maynard had covered about 225 miles, after taking off from Sidney, Neb., this morning before his machine failed. He had expected to reach Chicago today and New York tomorrow. He had flown 1425 miles of the return trip and has 1376 to go.

LABOR LEADERS WANT FREE SPEECH

PITTSBURGH, Pa., Oct. 16.—Labor leaders conducting the steel workers strike in the Pittsburgh district continued their preparations today to make a legal attack against local and county authorities in Allegheny county on the question of free speech and free assembly which the strikers alleged have been denied them. It is said injunctions will be applied for tomorrow against officials in Pittsburgh and Allegheny county and in some of the cities and boroughs of the county to restrain them from interfering with the meetings of local unions and labor mass meetings.

"The general situation is excellent," Secretary Foster said tonight, "with prospects of gains in small communities to which we have been unable to give more attention heretofore. Corporations had little to give out today regarding conditions in their mills. The Carnegie company announced that 300 to 500 men are daily seeking work in its Monaca Valley plants, and that about half of them are old employees."

ROBBETS TAKE \$300

Chicago, Oct. 16.—Five automobile bandits entered the terminus of the Chicago & Joliet Railway tonight, rifled the cash register, searched five passengers and escaped in an automobile with \$300. Police officers followed the bandits in another machine but lost trace of them.

THE SUGAR SITUATION

The food administrator in Chicago doesn't take a hopeful view of the sugar situation and believes that in the course of a very short time the equal price of sugar all over the U. S. will be not less than 25c a pound. This man, who with a committee has devoted a good deal of time to the investigation of the sugar situation, says the only relief possible is for the U. S. government to buy up the rest of the Cuban

crop or else make it possible for American business men to do so. The trouble in the south is that a commission is likely to be appointed to investigate sugar affairs and by the time they get well into action and make a report next year's crop will be in the markets.

RULE OUT THE RADICALS

The movement in congress to pass such immigration regulations as will keep the Bolsheviks and radical agitators would not doubt receive general support. There are varying views on the big immigration question among congressmen and senators, but there certainly should be a unanimity of opinion in adopting such restrictions as will make it difficult or rather impossible for the undesirable of Europe to get a footing in the U. S.

A HACKNEYED THEME BUT IMPORTANT

These days of fall rains bring to special attention the need for good roads and give an idea what the day of hard roads is going to mean for the country. While most Morgan county people are sincere believers in the hard road movement, travel over oiled roads just now cannot fail to impress them with the fact that dragging, grading and oiling, if done properly and frequently enough, will keep the average road in very fine condition. There are more miles

of oiled roads now in Morgan county than ever before and farmers are appreciating them as never before. At least until the day of hard roads materialize, the necessary funds should be expended for the constant dragging and the necessary oiling of all the main highways of this county. There are many people who rightly believe that if the amount of money was spent annually on dragging and oiling that will be required to pay the interest on the \$60,000,000 bond issue, that the state would have better roads and a greater mileage than it will be possible to accomplish thru the funds from a bond issue, based on the present cost of construction and materials.

COAL CONSUMER MOST CONCERNED

One hopeful thing about the proposed coal strike scheduled for November 1 is that the operators and the head of the miners' union have agreed to a conference with the secretary of labor. This, taken with the fact that the view of the secretary is known that a strike cannot be legally called until settlement is made with the federal government, gives a ray of hope. With the coal consumption of the country greater than normal and with all mines far behind with their orders, even the talk about a strike is serving to stir up a great deal of trouble and the public is making most strenuous efforts to lay in coal, even if not needed for immediate use.

The consumer with a reasonable supply of coal on hand should be willing in this strenuous time to have the balance of his order filled after the present sharp term of alarm over the situation has passed. A strike now would be absolutely criminal and it is hoped that the federal government will look upon the situation in just that light.

institutions. They believe that the county could well locate such an infirmary on a small tract of land in the vicinity of the tuberculosis sanatorium. They point out that by such a plan a great deal of overhead could be done away with and better care given to the inmates. Heat and light, and things of that kind could be produced from a common plant and without greatly increasing the cost of the operation of the sanatorium.

The time is going to come when a home for dependent children must be established in this county. The record of the welfare department shows that more than 100 children have been placed with individuals thru the agency of the Illinois Children's Aid society, but the time is near at hand when the dependent children must be kept here in the home county. The voters here are able to take care of these dependent children, and by their attitude on all questions of charity and welfare in the past have shown their willingness to be liberal.

There is much in this general plan to merit discussion and it is reasonable to suppose that a group of county buildings placed in some proximity to each other and still in a way not to interfere one with the other, could readily be operated at a saving to the taxpayers of the county. The Morgan county home farm could without doubt be sold for more than the establishment of an infirmary on a tract of reasonable size near the tuberculosis sanatorium. The general question is one which should be thoroughly discussed.

Rippling Rhymes By Walt Mason

The Dark Day. When the day of sickness comes, as it comes to every gent, and you sit, with folded thumbs, far too weak to earn a cent, will you have your little roll, to de-pay the beastly bills, to procure the grub and coal, and to buy the needed pills? Feeling well, men do not think, do not keep that day in view, when their health is on the blink, when they have the itch or flu; and they blow in all they make, blow it with their hearts serene, for glad rags and angel cake, blazng gems and gasoline. Each one thinks he is immune, sickness will not come his way, and he blows the round doubloon in his large and princely way. But some morning there's a call for the doctor and the nurse; there's congestion of his gall, and he's hourly growing worse. And he lies around in bed, just a weak and futile wreck, with a poultice on his head, and a plaster on his neck. And his wife has pawned her duds, and she's washing by the day, in a cloud of steam and suds, just to keep the wolf away. And he hates himself so bad! And he sighs, "When I am well I will grip the useful scab till I make the eagle yell."

FARMERS' INSTITUTE OPENS AT WAVERLY

Program Given Last Evening Enjoyed by Large Number—Exhibit of Farm and Household Products Extensive.

The annual Morgan County Farmers' Institute and Household Science Exhibit opened at Waverly Thursday night. The program which will continue thru Saturday, is being held in the township high school. In connection with the institute there is an extensive exhibit of farm and household products. There were numerous entries because of the interest in the event and the generous prizes offered, and some of the awards were made yesterday and are listed herewith.

The program Thursday night opened with a musical number by the high school orchestra and glee club. The welcome address was delivered by J. J. Thompson, who is the agricultural instructor in the Waverly high school. It will be remembered that the Waverly people have taken advantage of certain legislation which gives them federal and state assistance in maintaining the agricultural department of their high school. Mr. Thompson has been in charge of the work for a number of months and it has developed in a very gratifying way.

Following the address of welcome, Rev. Myron L. Pontius of Jacksonville made an address. Mr. Pontius spoke in place of Mr. Thompson of Chicago, who was unable to be present. His subject was Cooperation. He urged that cooperation was most essential among farmers and that it was becoming more and more recognized each year.

Following Mr. Pontius address Mrs. Frank I. Mann of Gilman talked of household science. While her theme related primarily to the affairs of women, she presented the subject in such a way that the interest of all those in her audience was maintained. The program for today is much more extensive than that of the opening day and will run thru morning, afternoon and evening sessions. On the Fred Deatherage farm this morning there will be a demonstration of tractors, manure spreaders, rope splicing, discing and lime spreading. This feature will be under the direction of J. J. Thompson in charge of the department of agriculture of Waverly Township high school.

STATE MEETING WILL BE HELD IN PEORIA

Jacksonville Man Will Attend Convention of Typographical Union.

Carl E. Newport expects to leave this morning for Peoria where he will attend the Illinois Typographical union convention which will be held in that city today, tomorrow and Sunday. At a recent meeting of the local typographical union, Mr. Newport and C. E. Blair were elected delegates to the state meeting with Abe Wood as alternate. However, Mr. Newport will be the only representative of local No. 356 present as it is understood that Mr. Blair and Mr. Wood are unable to attend. The state organization is comparatively new. The first meeting was held in Springfield three years ago and was only attended by a few central Illinois locals. The event has come to be one of the big state conventions, however, practically every city of any size being represented by delegates.

Paramount Picture

TWO WOMEN IN ONE FAIR BODY One of them sweet and modest as a child, shrinking, abashed, from the garish lights and Broadway's wild night orgies. The other a lure to evil. Spirit of the palaces of joy. Laughing her siren's laugh. Dancing her dupes along the road to ruin.

As one of these women, this girl was all that a good man wanted her to be. As the other, she appealed to the good man's prodigal brother. Which was her true self? Bidding in "The Market of Souls," which brother won? Come and see! See New York in her gayest revel. See her on a New Year's Eve, in the most sensational cafe scene ever filmed!

FIND WAYMAN GUILTY OF MANSLAUGHTER

Jury Returns Verdict in Murder Case—At Virginia Thursday Afternoon.

Virginia, Oct. 16.—The jury which heard the evidence in the murder charge against June Wayman for the killing of James Norris brought in a verdict this afternoon at 3:30 o'clock, after being out nearly 24 hours. They found Wayman guilty of manslaughter and he will be given an indeterminate sentence by the court. Under the law he will be kept in the penitentiary on this charge for a period of from 1 to 14 years. It is understood that at no time did the jury favor acquittal and that the long discussion was necessary because three jurors stood out for nearly the 24 hours for a sentence of life imprisonment.

present had a very enjoyable time.

Merritt Ladies Aid Gave Social Wednesday Night.

The Ladies Aid society of Merritt M. E. church gave a social in the church Wednesday evening. Oysters and ice cream were served and the ladies realized a

good sum from their effort. The Merritt Orchestra furnished excellent music during the evening. The members of the society wish to express their appreciation for the generous attendance which was fine considering the bad weather conditions.

Masquerade Party at Home of Mr. and Mrs. Perry

A masquerade party was given at the home of Mr. and Mrs. Harry Perry, Sr., northeast of the city, Thursday evening. The evening was spent in playing games. Music was furnished by Mrs. William Phillips and Fred and Harry Perry, Jr., who gave several vocal numbers. Refreshments were served and at a late hour the guests departed for their home after spending a most enjoyable evening.

Reception Given At Centenary Church.

A reception was given last night at the Centenary Methodist church in honor of their new pastor and his wife, Rev. and Mrs. David V. Goudy, formerly of Rushville, Illinois.

Rev. J. O. Kirkpatrick opened the program with prayer and the following are extracts from the program:

Solo—Miss Thayer.

Select Reading—Miss Deatherage.

Solo—Miss Gladys Sargent.

The program was followed by the song, "Blest Be the Tie That Binds," which was led by T. H. Rapp. Refreshments were then served. Everyone present had a very enjoyable time.

Hallowe'en Party at First Baptist Church.

The Intermediate Department of the First Baptist church held a Hallowe'en party in the basement of the church last evening.

Between the "Apple Duck" and the "Apple Artichoke" and Magic Drinks" all were kept busy. But the "Witches' Cave" proved to be the greatest source of fun and mystery.

Refreshments in keeping with the Hallowe'en season were served and enjoyed by all. About forty from the intermediate department were present and every one voted the social a good time.

The superintendent of this department, Miss Marcia Sleezer, says that they are alive and she predicts great things for the future of the department.

Social Given at Grace Church for I. C. Students.

A social was given by the Grace M. E. church last evening in honor of the students of Illinois College. Among the many enjoyable attractions of the evening was a select reading by Miss Mary Rose Adams of the Illinois Woman's College.

Games and a "peanut hunt" which was a thrill of the evening, and the Hallowe'en decorations were a success.

Late in the evening after the games had ceased, refreshments were served by the committee. Miss Mabel Jordan, chairman of the committee; Miss Cornelia LaRue, Miss Maude Moxon and Miss Ethel Spirens were to be congratulated on the wonderful success of the evening.

Cedar Camp R. N. A. of America Gave Social.

Cedar Camp No. 749, Royal Neighbors of America, gave a social at the home of Mrs. Ruth Robinson in Murrayville Thursday evening. The affair was in the nature of a kitchen shower in honor of Mrs. Lonella Jones who lost practically all of her household goods in the fire which recently destroyed the Jones residence. The guests each brought some useful article for use in the kitchen and a large number of articles were received. The evening was spent with games and music. During the evening refreshments of sandwiches and coffee were served.

FRAME BILLS TO DEPORT RADICALS

WASHINGTON, Oct. 16.—Several bills having for deportation of foreign agitators and aliens who fail to become citizens and for Americanization of foreigners now in the country were offered today in the senate and house, while the latter passed legislation extending war time passport restrictions for one year. This bill recommended by the state department and designed to keep dangerous aliens out of the country now goes to the senate.

Hearings on appropriations for naturalization work were continued before the house immigration committee.

Raymond Frisicat deputy commissioner of naturalization told the committee 11,000,000 foreign born persons in the country were not naturalized.

The senate labor committee, which has been investigating the steel strike decided today to hear witnesses on Monday and Tuesday as to the activity of radical aliens in that strike. It also voted to close its inquiry by the middle of next week, so as to get to work on naturalization legislation which it proposes to press in the senate.

REPORT FAVORABLE OF LEASING BILL

Washington, Oct. 15.—The public land, oil, gas, phosphates and coal leasing bill, recently passed by the senate, was ordered reported favorably today by the house public lands committee. Few important changes were made by the house committee and Representative Sinnott of Oregon, chairman said the measure would be called up for house action next week.

the publication of the process verbal, marking the beginning of the peace with Germany to be made in the official French journal early next week and it is hoped that similar action can be taken regarding Austria-Hungary a fortnight afterwards.

Negotiations for peace with Bulgaria and Turkey must go on for some time after that, but with those America is not officially concerned not having been at war with those countries. It is possible however, that to confirm the understanding under which these countries may enter the league of nations the signature of an authorized American plenipotentiary will be affixed to the final peace treaties. But it is said that it will not be necessary for the American delegation to remain in Paris on that account.

MEETING ENDS IN FREE FOR ALL FIGHT

BILBAO, Spain, Oct. 16.—A conference of syndicalist miners held here today after hot discussions led to a fight in which knives and pistols were used. Four miners were severely wounded and several others less dangerously injured. The police restored order.

Spanish miners have for some time been on strike for a seven hour day and improvements in their economic condition. Altho the government promised to obtain the seven hour day for miners in Asturias and is using its effort to secure the general adoption of the seven hour day thru-out Spanish mines dissatisfaction among the miners evidently continues.

to the man who has a Heating Stove to this Fall. ESTATE stoves are not GOOD stoves—we sincerely believe them to be the BEST stoves one can buy. Read the message, then come in and let us show you the stove.

"I Don't Like to Brag About Myself—BUT"

when I hear you fellows grumbling about your high coal bills, cold houses, and all that sort of thing, I can't help swelling up a little bit with pride.

"See that stove over there? Handsome—you say; sure—but handsome is as handsome does, you know. That's all."

Estate Hot Storm

—the stove with a little furnace in it—

and it does more, and does it better, than any other stove in the world. It's both a stove and a furnace in one, and I'd rather have it than any furnace because it costs less and takes less work to maintain. The Estate Hot Storm has solved the heating problem for me, and I'm mighty proud of my purchase.

SUNDAY October 26, 1919

Has Been Designated as

Go to Sunday School Day

If you are one of those who thinks he has outgrown the Sunday School, and have got into the habit of remaining at home, shake yourself out of it. Come back to the old Sunday School. No one is too old. Come, give us your aid both by example and precept. It will do you good, by opening long closed channels of thought, and the added inspiration of your presence will be beneficial to us. The sight of hundreds of bright, happy, earnest children, busy with those things which make for sound living, cannot fail to cause a stirring within your heart, and make you glad.

Asserts New Discovery Brings Blessed Relief to Rose and Hay Fever Sufferers

Can Make It Yourself At Home At Trifling Expense

In spite of all the doubters and scoffers, a man in Kentucky, who changed his annoying and distressing hay fever into less than a mild cold, claims most emphatically that if taken in time hay fever can be conquered or at least made so harmless that it is not even bothersome. He gave his discovery to scores of other sufferers with the most remarkable results and has recently been prevailed upon to dispense it through pharmacists to all hay fever sufferers who still have faith that nature has provided an effective remedy for this common yet miserable disease. And best of all this remedy costs almost nothing. Get a one ounce bottle of Mentholized Archib's any drug store, pour the contents into a pint bottle and fill the bottle with water that has been boiled. Then gargle as directed twice daily snuff or spray each nostril thoroughly. A. McClernand, who commanded the 13th Army Corps; Major General John A. Logan, who commanded a division; Brigadier General John E. Smith, who also commanded a division. The bill also provided that the governor should appoint five commissioners, to receive only the actual expenses incurred in the discharge of their duties. For the purpose of carrying out the bill there was to be provided a sum not to exceed \$50,000, of this amount, \$25,000 was made immediately available and on the 14th day of March, 1917, an additional \$25,000 was appropriated.

As soon as the bill became a law, Governor Dunne appointed the five commissioners, namely: Col. R. E. Koch, Maj. Bluford Wilson, F. D. Meacham, Colonel Trimble and T. B. Orear and on the 12th of January, 1916, the governor called the commission together for organization.

W. B. Mundie of Chicago was chosen as architect and art counselor. The commission selected designs and performed all the work instructed to them. Col. Koch died and Charles F. Noble was appointed to succeed him; F. D. Meacham died and Carroll Moore was appointed his successor; Col. Trimble died, and John N. Vernon was appointed to succeed him. Bids and specifications were received and Leonard Crunelle, sculptor of the Morgan County Monument, was chosen to make the statue of General Logan and it is a fine piece of work.

Trip Made in Special Car.
October 15th was decided as the date for dedication and the commission secured a special car attached to the regular train on the Illinois Central Railroad, leaving Chicago the evening of the 13th for Vicksburg. On the train were Commissioners Vernon and Wilson, S. W. Nichols, representing Judge Orear of this city; Speaker Shanahan of the House of Representatives; E. O. Phillips, representing the Chicago Tribune; Colonel Richings J. Shand, of the adjutant general's staff and representing Adjutant General Dickson; J. C. Mason, auditor, and John F. Tracy, private secretary to the governor; Miss Sallie Vernon, daughter of Commissioner Vernon; S. E. Simonson of Luxora, Ark., R. J. Carmichael, representing the Illinois Central railroad. At Champaign the governor, wife and daughters, Misses Hattie and Florence, and

Miss Moore, attending Mrs. Lowden, entered the car and at Duquoin, Carroll Moore and daughter came aboard.

Commissioner Noble was unable to be present, but sent his regrets.

"I extend hearty congratulations to Gov. Lowden and party and the commissioners on the final closing of the labors of the Illinois-Vicksburg Statues Commission. I hope the governor will be pleased with the statues as Illinois' tribute to the park. If I was presiding at the dedication services I would tell the assembly that Frank Lowden is a bully fellow and a democrat in everything but politics." C. L. NOBLE.

Mrs. Logan Sends Regrets.
Mrs. Logan had been invited, but sent her regrets.

"Washington, Oct. 15.
"Hon. Illinois Statues Commission:

"Gentlemen—I deeply regret my inability to be present at the dedication of the statues to Grant, Logan, McClernand, McCarthy and Smith, erected by Illinois in memory of her heroes. Accept for yourselves and all who had part in the conception and consummation of this well earned tribute, my earnest, profound gratitude."

"MRS. JOHN A. LOGAN."
The journey to Vicksburg was very pleasant, the whole party being entirely congenial, the worthy governor mingling with all the others most familiarly and heartily. The train went in a rain storm all the way from Memphis to Vicksburg, and the country looked rather dismal in consequence.

At Vicksburg the party was met by a deputation of citizens and every possible courtesy was shown them. They were escorted to the National Park Hotel, the best in the city, and everything possible was done for their comfort and welfare.

Wednesday morning automobiles were brought around and the visitors were taken thru the military park and cemetery. All the commissioners chosen were veterans who had taken part in the siege of Vicksburg and it was interesting to hear them tell their experiences and point out the places where they served. Brave, noble men they were and they saw severe, hard service and it was interesting to see their names along with the others on the wall of the Illinois monument.

Ceremony of Dedication.
In the afternoon the formal exercises took place and were very interesting. Commissioner Vernon, secretary, read his report which the facts regarding the commission and its history are taken. Commissioner Wilson, of Springfield, presided, and did his duty in an admirable manner. At each of the statues or busts, except that of General Grant, there

were brief exercises consisting of flag raising and a dedicatory address by Major Wilson who performed his duties in a manner most excellent. His remarks were well chosen, eloquent, brief and always exactly to the point.

At the equestrian statue of Gen. McClernand, there was a flag pole, also at the statue of Gen. Logan and of Gen. Grant. Taps were sounded by a Vicksburg musician at each; at the McClernand statue the flag was raised by Mrs. Grace Cameron, daughter of Capt. Rigby, in charge of the park, and a U. S. Commissioner; at the Gen. Logan statue Miss Hattie Lowden elevated the flag and at the Gen. Grant statue Miss Florence Lowden did the same. As the participants were escorted by a detachment of Boy Scouts.

Major Wilson Presides.
In front of the Grant statue a temporary stand had been erected and on it the exercises were conducted. Here Major Wilson presided in a fine manner and deeply impressed every one. He called on Rev. John S. Johns of Vicksburg to offer prayer to the club of All Saints College, stood by the monument and sang "Star Spangled Banner" and Major Wilson said in brief:

"It fell to Illinois, in the war for the Union, to furnish not only the largest contingents of the rank and file of any state, sharing in the burdens and the glories of the historic and decisive campaign in the capture of Vicksburg, but the waters of the Mississippi might flow 'unvexed to the sea' and to strike a marked blow at the strength of the Confederacy by dividing it in half."

"Illinois also had the high honor of naming the commander of the army, the commander of one of its fighting corps, and the generals in command of several leading divisions and brigades. Grant, McClernand, Logan, Eugene D. Carr, John E. Smith, John McCarthy, Elias Dennis and Michael Kelly Lawler."

"Under the leadership of these distinguished soldiers, the devoted volunteers of the middle west, in spite of many failures and many bloody and disheartening repulses, clung grimly to the forbidding cannon-crowned heights of Vicksburg, until the hour of victory struck."

"Illinois is here today in the person of her able and distinguished governor to honor the memory of her might dead."

"In their lives they were examples of a noble courage, and dying, left high memorials of virtue, not only unto young men, but unto all the reunited nation."

He then presented the monuments to the park in the name of Illinois and Captain Rigby, U. S. commissioner of the park, received them. He mentioned that Miss E. L. Guion, daughter of a Confederate soldier, had joined with him in making the park the beautiful place it was.

Commissioner Vernon, secretary of the commission then read his report.

The Glee Club sang "Illinois" in a fine manner.

Governor Lowden Speaks.
Governor Lowden was then introduced. He expressed his great appreciation of the work done by the commission and the faultless manner in which they had performed their duties. He also thanked the young ladies who sang so well and assured them that the next time an Illinois party visited Vicksburg they would surely bring along some desirable young men.

He then proceeded to deliver his address on the occasion and the wholly impromptu it was grand from first to last. He paid a glowing tribute to the noble men who fought so heroically on the ground made forever sacred by their presence and extolled the lofty patriotism which impelled them. He referred in a feeling manner to the happy cordiality with which the visitors had been received and extolled the noble works of art and paid a just tribute of esteem to Mr. Munster, the architect who had so great a part in making the whole enterprise a success.

Cong. Collier Responds.
Governor Bilbo of Mississippi had expected to be present but was unable to get there and his place was ably filled by Congressman J. W. Collier, who made a grand address abounding in patriotism and good will. He said the south was not 95 nor 99 but 100 per cent American and all would stand together to the end in defending the grand old flag we all love. He was greeted with hearty applause.

The glee club then sang "America" and the exercises were at an end and a general handshaking and cordial greeting followed. Gov. Lowden and his family were the center of attraction and all acquiesced themselves in a manner which won the hearty esteem of all. Simple, unostentatious, gracious and courteous, they at once placed at their ease all who approached them.

The foregoing is but a very brief outline of the exercises but will show the grand spirit of the occasion. On the way down a party boarded the train at Memphis to tender Gov. Lowden an earnest invitation to address a large gathering of the Hard Wood Lumber Association to meet in December. The ladies of the Vicksburg Civic League sent to the hotel a superb basket of flowers, a present Mrs. Lowden and a deputation of citizens called and tendered the compliments and welcome of the city and regrets that the visit was so short.

That night the governor and party left for New Orleans where the governor was to address a large gathering.

LOCAL MEN WILL ATTEND STATE MEET

Jacksonville Represented at Peoria Sessions of American Legion.

Jacksonville will be represented in the state convention of the American Legion at Peoria today and tomorrow by four delegates and alternates, and possibly a number of local members. Delegates John W. Larson and Rev. W. H. Marbach, and Alternates Orby, in charge of the park, and a drain Fox and Dr. A. B. Applebee will be in attendance at Peoria today as will Carl E. Newport, a member of the local post, and possibly Temporary Chairman Richard Y. Rowe and a number of others. A count of the paid up membership of Jacksonville post yesterday showed the local organization to be composed of one hundred and eighteen active members and therefore entitled to two delegates and two alternates as elected. One of the big features of the meeting will be the parade. Over 6,000 former service men will again "fall in" come to "attention" and step off on the left foot for a hike to let the state know that its former service men and women are still on the job and that they have come back to take an active hand in the civil affairs of the country.

Program for Today.
The state executive committee of the American Legion held a session at the Jefferson hotel in Peoria Wednesday. The program for the opening day was outlined and will be of interest to local members.

At 9 o'clock Mayor E. N. Woodruff will make the address of welcome at the Jefferson hotel. Henry J. Kelly, former commander of the famous "Reilly's Buckles," will make the response, which is expected to be the keynote address of the convention.

Earl W. Seary, present temporary state secretary, will be nominated by the executive committee for the state office. Seary has been doing great work for the organization, and while he is not seeking the office, the Legion believes he is the logical man for the position. In addition to his ability for the reason that he's a high spirited hard worker in the Legion's interests.

The resolution committee and the credentials committee will be made up of delegates from the eleven state districts. A pick of the soldiers and marines to evenly balance all the committees will be made.

It was learned in Peoria that the Cook county posts had held their caucus and that Charles Roth of the Oak Park post, will be the chairman of the Chicago body, with Miss Harriet Root, of the Washington Park post, as vice-chairman. Tom Sullivan, of the same post, will serve the Chicago delegation as secretary. Over 135 delegates will be in attendance.

Quincy is already plugging for the next state convention. Chicago, Springfield and Peoria, it is understood, will fight for the state headquarters.

Bernard Kelly, commander of the Peoria post, will run for the state commandery as one of the down-state candidates. He is Marshall Kierney, of Chicago, being boosted for the same office. The Chicago delegation is about divided upon Kierney as a choice and the downstate vote may help the Peoria men.

COUNCIL APPROVES DRAFT OF NOTE

PARIS, Oct. 15. (Havs)—The supreme council today approved the text of a notification to be addressed to the neutral powers which will be asked to join the league of nations, setting forth the conditions under which they may adhere to the covenant of the league.

The council also approved the draft of a note to be sent to Germany demanding the surrender to the allied and associated powers of German ships which were turned over during the war to companies in The Netherlands and which are at present in German ports. The note declares that the sales are void because of their irregularity.

Another draft note to Germany, regarding German representations on the subject of the territory of Memel on the eastern Baltic frontier of Germany declares that the allies decline to discuss the destiny of Memel with Germany which renounced its right over this territory by the treaty of Versailles.

The solution of this question, it is said concerns only the associated and allied powers.

U. S. TAKES OVER GERMAN SHIPS

NEW YORK, Oct. 15.—Formal custody of five of the eight former German passenger ships, title to which is now a subject of diplomatic discussion between the United States and Great Britain was today transferred from the war department thru officials of the port of embarkation here to the United States shipping board. The ships transferred are the giant liner Imperator, the Mobilie (formerly the Cleveland); Pretoria, Prinz Friedrich Wilhelm and Zepplin, aggregating 111,332 gross tons.

These ships were taken over by the allied commission in German ports following the signing of the armistice and were allotted to the United States to bring troops home from France.

The Imperator and some of the others were presumed to go to Great Britain and the Cunard and other lines now have in New York more than a thousand men ready to man them. On the day that the Imperator was to be turned over to the Cunard Line, however, the delivery was interrupted on an order from Washington. It is thought probable that they will remain at the army piers until the question as to their disposition is settled.

REPORT ON OVERSEAS WORK OF NURSES

WASHINGTON, Oct. 16.—That army nurses who served overseas with the American forces during the war had their share of service and suffering is shown in the final report on the activities corps made by Miss Julia C. Stimson, acting director, who headed the army nursing service abroad. Between May 8, 1917 and May 31, 1919, 10,456 nurses out of a total of 21,480 enlisted for the war saw service overseas.

Three were wounded in action and 266 died while on duty. The real work of the American women commenced July 18, 1918, with their own army when the final German attack was stemmed and the great victorious allied offensive started.

"From July 18 to November 11, the amount of work done was such that no praise would be great enough," Miss Stimson says. "It was not at all uncommon for nurses to work 14 to 18 hours a day for weeks at a time, and some hospitals with only seventy or eighty nurses cared for 2,100 patients."

Mr. and Mrs. Erie Northrup and baby, Mr. and Mrs. Wm. Botterbusch and daughter Rosa all of Bluffs motored to this city yesterday morning.

ILLINOIS COLLEGE MEETS NORMAL TODAY

Harmon's Men Meet Normal on Illinois Field This Afternoon—High School Plays at Pittsfield Saturday.

Coach Harmon's Illinois squad are ready for the whistle this afternoon when they line up against Illinois Normal on Illinois field. Play will be called at 3 o'clock. Omer, University of Illinois, will referee. Hufford, Hanover, will umpire and John Larson, Moine High, will be head line man.

During the week Coach Harmon has been working his men hard and they have overcome some of the defects which were apparent in the McKendree game. The men came out of that game in good shape with the exception of Captain Strickler, who was still suffering from bruises received in the Lombard game.

It is probable that Coach Harmon will not use Strickler, Barnes or Bronson today as all of them are still suffering from bruises received in the first game. However, if they are needed, they will be ready to go in.

While Normal was defeated by Millikin last Saturday by a score of 45 to 0, Coach Harmon is not looking for an easy battle. Normal always fights hard and especially against Illinois and will put up a hard scrap to redeem their Millikin defeat. Illinois men, however, will fight just as hard to keep their slate clean and they should bring home the bacon.

Illinois' tentative lineup follows: Panning, ls; Andrew, lt; Mackey, lg; Tomlinson, c; Litter, r; Reese, rg; Curren, re; Ferreira, qb; Locke, lb; Cully, rb; Mutch, fb.

High School at Pittsfield Coach Hufford's high school warriors will journey to Pittsfield Saturday where they will play the Pittsfield High. The local lads after winning their game with Palmyra, went to work with renewed vigor the past week and have been putting in some hard work each morning on Illinois field.

Pittsfield is said to have a strong team this year. That they have is shown by the fact that they defeated Beardstown by a score of 75 to 0 last Saturday. They also have a victory to their credit over Quincy.

However, Coach Hufford is not scared of these reports and expects his men to give a good account of themselves and win the game. The locals have played close games on foreign fields this year and will not have stage fright from strange surroundings when they line up at Pittsfield tomorrow.

I will not be responsible for any bills contracted by any one other than myself. C. D. Meade.

There will be no guests on this occasion and all members of the Rotary club are expected to be present and looking forward to the event with interest.

WATCH FOR THE NATIONAL BLOUSE WEEK. NOV 10TH TO 15TH, AT HERMAN'S.

WILL GIVE RECITAL AT WOMAN'S COLLEGE

Henry Ward Pearson Will Give Recital This Evening in College Auditorium

Mr. Henry Ward Pearson, the new director of the College of Music at Illinois Woman's College, will give an organ recital in the College Auditorium, this evening, at 8:15 p. m. to which all music lovers and friends of the college are invited.

Mr. Pearson comes to Jacksonville from Hood College, Frederick, Maryland, where he has been under J. Warren Andrews and Clarence Eddy of New York, and Henry B. Vincent of Chautauqua. He has prepared the following interesting program: Sonata E. Minor Rogers I. Allegro con brio; II. Adagio; III. Scherzo; IV. Interludio; V. Fuga.

In the person of James H. Rogers, Cleveland, Ohio, possesses one of the most talented composers of organ music to be found in America. He has written a number of successful songs, organ suites, as well as many other shorter piano pieces. This sonata is one of his best works and deserves a prominent place among organ compositions of the present day. Aira and Allegro from Concerto in D Handel

Handel was a great organ virtuoso and greatest when engaged in extempore performances. In comparison to Bach he left very few compositions for the organ. His chief efforts were directed to vocal composition—first to opera, later to oratorio—and upon the latter his fame rests. His organ works are less profound than Bach's. Even a cursory examination will show that the fugues are less carefully worked out, the counterpoint less organic—yet as sound-pieces they are none the less effective.

Nocturne Ferrata Dr. Chevalier Giuseppe Ferrata was for several years connected with the department of music at Beaver College, Pa. He now resides at New Orleans. He has won recognition outside of the United States gaining an unusual distinction in securing the gold medal at the exposition of Milan, 1906, and in 1907 carried off all prizes offered by the Art Society. Even a glance at his compositions will convince that he belongs to the modern school of musical thought, that he is interested to find new and melodic piquancy and color.

Clair De Lune (Moonlight)

One of the "Three Impressions" Opus 72, the others being "The Night" and "Harmonies of Evening" all of them in free modern style. King-Eliert is one of the most important figures in German music today. The still a young man (born in 1878), he has one hundred published works to his credit. As a harmonist King-Eliert is one of the extremists of modern composers, often running to excess and extravagance, as do Struss and Reger. Nevertheless his works have a vitality and power which stamp him as a genius of the first rank, who is destined to accomplish far greater things.

Toccata D Minor Nevin Gordon Balsh nevin was born at Easton, Pa., and is now organist of the First Presbyterian Church, Greensburg, Pa. He has written a number of charming works for the organ.

A charming melody by one of the younger generation of English composers. **Marche Russe Schminke** Mr. Schminke was born in New York in 1881. Studies theory with Max Spiker and organ with Gaston M. Dethier.

The principal theme of this march is founded on the Russian folk song "Ay Ouchnem" sung by the Bargemen on the Volga as they haul their boats. The second theme is of Russian origin. The "Ay Ouchnem" theme is used by the whole first part; the second theme when it appears is developed to a vigorous climax which leads to the brilliant reappearance of the first theme fortissimo, under which a clever piece of contrapuntal writing, the majestic Russian national hymn contributes to a thrilling ending.

THE "BLUES" Caused by Acid-Stomach

Millions of people who worry, are despondent, have spells of mental depression, feel blue and are often melancholy, believe that these conditions are due to outside influences over which they have little or no control. Nearly always, however, they can be traced to an internal source—acid-stomach. Nor is it to be wondered at. Acid-stomach, beginning with such well defined symptoms as indigestion, belching, heartburn, bloating, etc., will, if not checked, in time affect to some degree or other all the vital organs. The nervous system becomes deranged. Digestion suffers. The blood is impoverished. Health and strength are undermined. The victim of acid-stomach, although he may not know the cause of his ailments, feels his hope, courage and energy slipping. And truly life is dark—not worth much to a man or woman who has acid-stomach!

Get rid of it! Don't let acid-stomach hold you back, wreck your health, make your days miserable, make you a victim of the "blues" and gloomy thoughts! There is a marvelous modern remedy called EATONIC that brings, on such quick relief from your stomach troubles—sets your stomach to rights—makes it strong, cool, sweet and comfortable. Helps you get back your strength, vigor, vitality, enthusiasm and good cheer. So many thousands upon thousands of sufferers have used EATONIC with such marvellously helpful results that we are sure you will feel the same way if you will but give it a trial. Get a big 50-cent box of EATONIC—the good tasting tablets that you eat like a bit of candy—from your druggist today. He will return your money if results are not even more than you expect.

A Saving that Belongs to You

Some writer once said that it took him so long to make up his mind that he must have an awful lot of it.

It didn't take us long to make up our minds what to do when we found that prices have advanced so since we bought our fall goods that our clothing is worth much more than it was a few months ago.

We decided that the saving we made on our early buying belonged to you; and you're going to get it in the best clothes made.

THE OBSERVATORY

Five million Germans have officially served notice that they want to emigrate. And you can't blame them, either.

The President says the unrighteousness of Germany's side in war would have inevitably drawn us into the fray even though there had been no submarine outrages or overt acts to precipitate our entrance. It is a pleasure to read the President's words on this point. But it does leave one wondering why, when Germany's cause was always wrong, it took us until after the 1916 election to get into the war.

One doesn't know just now when he sees a man going thru his pockets hurriedly whether he has lost his pocketbook or has forgotten into which pocket he put his purchase of sugar.

Maybe nature arranges fall colds as a defense against fumes from an overcoat that has been in camphor balls.

That once classic expression, "Say when," will soon be in the limbo of the obsolete.

Work continues on the East State street pavement project. After being in an almost impassable state for so long it will be difficult to recognize the old thoroughfare without the bumps once the new surface is finished.

Despite the H. C. L. in the towns and the increasing value of farm lands, the annual sales of farm implements and stock continue at an undiminished rate.

It doesn't appear as tho the weather man was going to permit the staging of the final game of the Journal-City baseball series. Maybe football could be substituted as the sport for the deciding contest.

Dane Should Write to Secretary Baker.

A judge at Concordia made a ruling in a naturalization case last week that will have the approval of all Americans who asserted their loyalty to their country at a time when it meant some sacrifice. Says the Lawrence Journal-World. The case concerned a Dane who had taken out first papers, but sought to evade the draft on the ground that he was not an American citizen. He refused to take out final papers when the opportunity was given at Camp Funston, and was not sent abroad. When the war was over the man suddenly appreciated the desirability of becoming a citizen and applied for final papers. The judge dismissed the case with the ruling that the papers cannot be refused for ten years.

Opportunity is the

ace of them all. The opportunities of youth, of learning, of professions, of the age we live in, of science, of war, of peace, of progress, of morning hours, of justice, of thrift, of mechanics, of the arts, of the soil; so on to the end of the chapter. "The world is yours if you go after it" is the message of the "opportunity" speaker.

If the talk isn't on opportunity, the next best bet is reminiscence. He may tell about the school he attended when a boy. The variations of this subject are fascinating. Some recounting make the old fashioned spit-log benches and the open fireplace seem almost a hardship. Or they may turn to the severe old schoolmaster (no Miss in that day), who whipped long and hard. But boys in the old days didn't mind much; they were used to whippings, they had their fun. They "got even." He punctuates the story with a wink at the older boys. Mystified, but blase, they return a knowing smile.

If neither of these subjects appeals to the speaker he infallibly turns to that group which may be classed as "the inspiration of youth." "Young people, as I look into your bright and smiling faces," the address begins, and drifts gently into flowery and flattering paths.

After all, the speaker is more important than his subject. If he is a real man with a real message he can depend on a hearing. For

no audience is shrewder in distinguishing between the real and the sham, the substantial and the perfunctory than the young people of high school or college.

COUNTRY GIRLS MAKE GOOD

Many Successful Women Come from Small Towns—Away from Home, Dependent Upon Their Own Resources in the City, They Have an Incentive Their Metropolitan Sisters Lack.

From "The Girl and The Job" (Henry Holt & Co., New York) by Helen C. Hoerle and Florence B. Saltzberg.

When one considers the business opportunities open to the city girl and her country cousin, the advantages seem to be all in favor of the former. How many girls in the city realize this? How many of them appreciate the fact that opportunity is constantly knocking at their door? Comparatively few we fear.

But strange as it may seem, it is in nine cases out of ten, the small town or country bred girl who is most successful in the city. Three reasons may be given in explanation of this. First, the out-of-town girl has to depend entirely on her own efforts to live; if she does not keep her position and advance, she cannot eat or have a roof over her head, so she strains every nerve toward success. The city bred girl usually lives at home, and is at least sure of a roof over her head and food to eat if she is out of a job, so

she does not worry about it as much as the country girl.

Secondly, the out-of-town girl who has gone to the city so proudly, hates to return home and admit defeat.

City Girl Has More Distractions Thirdly, the city girl at the time she starts to go into business is just at the age when pleasure appeals to her most, and theaters, dances and dinners may mean more to her than business. This, of course, is only human and natural. Yet it distracts her from her daily work. The out-of-town girl, does not know so many city people, does not go out so much, therefore has more time to study and work toward advancement.

Then, too, with her it is a point of pride to succeed. With her it is to "sink or swim," so she swims more valiantly toward the shore of success than perhaps she otherwise would. And for that reason it is seldom that she does not reach the shore.

Successful Small Town Girls

This may all sound unfair and untrue to the city girl who believes in her heart that she is as ambitious as anyone else, but if you examine the lives of our contemporary successful women you will discover that few of them are the products of the big cities. Fannie Hurst, the writer, was a small-town girl who suffered and starved and slaved before she attained success. Gladys Hanson, the star, was a Southern girl; Hazel Dawn came from the West, and so on. But they tried their wings in the big city and succeeded because they dared not fail.

This all seems an argument for the small-town and country girl to try her luck in the big city. It is not. We are talking generally and perhaps there are many small town girls who never reach their goal. But we are trying to encourage the city girl to make her job more than a bridge between school and matrimony; to make it one of the big things in her life; and to work harder for success.

REMOVE JUNK FROM PRISONER'S BODY

BOSTON, Oct. 15.—Discovery of a "human junk heap" was announced by officers of the house of correction at Deer Island today, Charles W. Buzzell of Montreal, serving a sentence of one year for forgery, complained of indigestion.

A surgical operation resulted in the recovery of two pounds of miscellaneous articles from his stomach. The collection, Dr. L. C. Rockwell said include parts of a dog chain two feet long, a safety razor blade nearly whole, a suspender buckle and 179 fragments or pieces of glass, hay wire, staples, nails and screws. Relieved of these substances, Buzzell has almost entirely recovered, it is said.

The prisoner has been accumulating the collection which suicidal intent, according to Dr. Rockwell since last December. Buzzell told the surgeons that he was a former clergyman having held several pastorates in Canada and had been convicted of worthless check swindling in Michigan.

Mervin Kitner, an ex-soldier of this city, went to Springfield on business yesterday.

The Path to Health

For many thousands of women the Path to Health has certainly been through Lydia E. Pinkham's Vegetable Compound. When this great remedy was first introduced, and for many years after, skeptics frowned upon its curative claims, but as year after year has rolled by and the little group of women who had been cured by it has since grown into a vast army of hundreds of thousands—doubt and skepticism have been swept away as by a mighty tidal wave, until today this purely vegetable medicine is recognized as the greatest remedy for woman's special ills in the world. This is because it is a wonderful tonic and reconstructor which acts directly and favorably upon the feminine organization and is a specific for that purpose.

ROAD MAN

WINS HIS FIGHT

On Verge of Giving Up Ram-
blac Keeps Him on Job.

Put up a game fight to keep on the railroad, because Ramblac was just about to give it up, but with the help of Tanlac, I am still on the line like a new man and more endurance than I ever had. P. C. Stewart, of the island railroad, who lives at North Glendale, Peoria, Ill., when a man has been on the road for eighteen years like me, working long hours and irregular meals and just living sleep like I had to it, to tear down his constitution and that is what happened. My stomach got in such a state that the food in the restaurant along my run made me look at, and what little I force myself to eat didn't do me any good. This sort of thing began to break down my health ten years ago, and nothing but grit kept me going. My stomach was away and I fell off right until it just seemed like I didn't take out many more. Then I began to hear of the boys talking about Tanlac, and I knew it wouldn't make me any worse than I was, so I started taking it. Right there is where I sided with my troubles and hit the line to good health again. The first few doses made me want to eat, and after I had been taking a while, I found that I was swinging off my trail and had a lunch in a hurry, and if I matter much how it was, or what it was, it went to the spot and did me good. I eat just anything I want, the trouble now is getting to satisfy me. My sleep is full—I can go to bed at night, and unless the call boy happens to come for me during the night, I never wake until morning. When the call boy comes it is several good loud raps on the door to get me up. Then I start out on the run, I am strong and full of energy as I did in my life, and can do more work than I ever could. I told several of the boys how Tanlac has helped me, for I know how hard it is for a railroad man to keep going, and I want to know how to keep fit. Tanlac is sold in Jacksonville by Coover & Shreve, in Meridian by Mr. R. B. Field, in Murfreesboro by Mr. E. Gilbert, in Warrenton by The Hoy Pharmacy and in Chapin by Jno. On & Bro.

MIKE MAY STAY IN AMERICA

Milwaukee Families Want to
Adopt Belgian Orphan of Stow-
away Fame.

Little Mike Gilhooley, the Bel-
gian lad who is fast acquiring
fame as the world's greatest stow-
away, is sitting around Ellis Isl-
and hoping the immigration ser-
vice has a hard time finding a
boat to take him back to France
for the fifth time. Mike has been
told that several families in
America want to adopt him and
he thinks he has a good chance of
living in America if these families
get after the immigration officials
before he sails.

If he is sent back too soon—
well, Mike says they can get him
the next time he comes over.
The 14-year-old boy, as a result
of coming over five times as a
stowaway, has the habit.
Several families in Milwaukee
have asked for the Belgian or-
phan, whose Irish father died be-
fore the war and whose French
mother died during the German
occupation of Belgium. The Big
Sisters and Big Brothers of Mil-
waukee are all working to get
Mike a good home in Milwaukee.
When they find a good one they
will make application to the im-
migration service for Mike, who
is now barred from America be-
cause he is under 16 and has no
one to care for him.

American soldiers and sailors
always take a liking to the little
red-headed chap and always as-
sist him in getting to America.
Even the ship's captain cannot
help liking the lad, and before
Mike is deported the officers of
the Orizaba, the ship on which he
made his fifth trip, plan to take
him to New York for a dinner
and one-night party as a "send-
off."

The immigration officials have
decreed that Mike must be again
deported. But his sailing date
has not yet been announced, so
Mike continues to hope.

VALIER'S ENTERPRISE FLOUR

MANUFACTURED FROM BEST GRADE OF PURE SELECTED WHEAT

TRADE-MARK REGISTERED IN U. S. PATENT OFFICE

VALIER & SPIES MILLING CO.
MARINE, ILL. - ST. LOUIS, MO. - ST. JACOB, ILL.

*There was a cloud -
over this year's hard wheat crop.*

Only a little of the crop is good enough
to make Valier's Enterprise Flour.

This good wheat, which we paid a large premium
to get, makes Valier's Enterprise Flour stand out
among ordinary flours, like a lighthouse in time
of storm. Housewives everywhere will flock to
Enterprise, as the flour they can depend upon for
good baking results.

You can't make good bread from flour which lacks sufficient
gluten to make the bread rise properly. You can make good
bread from Enterprise Flour, because we paid the premium
necessary to get wheat with real gluten strength.

**Valier's
Enterprise Flour**

costs more than ordinary flour made from the general run of
wheat; but what if it does? Your experience tells you that it
is cheaper to pay a little extra and get results. You know
that there is no economy in baking heavy, soggy bread, at
any price. Better pay a little more for Valier's Enterprise
Flour and get more loaves, and loaves that you can enjoy.

Your grocer can sell you Enterprise Flour. Don't experiment
with any other. Insist on getting "Valier's Enterprise."

FUR PRICES UP AGAIN

SOME LINES SHOW 65 PER CENT INCREASE IN AUCTION

Dealers From All Parts of World Gathered in New York to Bid on Pelts—Even Tabby Cat Is In Demand Now.

Gene LaMotte in New York Mail. When you buy the next fur coat or fur trimming strips you may think the saleswoman is telling you the price by the dozen. But no! It will be simply because the spotter said "up" and the auctioneer added another boost when the raw pelts were sold to your manufacturer dealer.

Five hundred fur buyers have been attending the auction of "cured" furs. They come from every part of the civilized world that is far enough away from the equator to have the word fur sound sane. The sum total of fur sales at the auction is expected to reach 10 million dollars.

Paris, Australia and the Eskimo of Labrador will be clothed in furs sold under the hammer in the Masonic Temple in New York City.

Increases 65 Per Cent. If furs were not "going up" everyone would think fur was not

fashionable, but it is. Since April it has increased 65 per cent in some skins.

With an auctioneer, two clerks, five spotters and hundreds of enthusiastic buyers, there was not a dull moment after the sale opened. Every time someone in the room would lift an eyebrow or a cigarette, wave a pencil or jerk his head one of the spotters shouted "up." Sometimes two or three spotters shout at the same time, and often it is puzzling just where the "boost" comes from, but it always comes.

Every "up" at the auction means an increase of one cent on mole, and as high as \$5 and "up" on silver fox. Even "house cats" were marked at prices that no one would call cheap.

"Genette" is what Tabby is called after she has been killed for the ninth time and then "cured."

Strange Pelts for Sale. Perhaps you are wearing a set of "sundry." These include Gajjak, Chinchilla rat, Pahlmi and Guanaco. No matter what they are, they are sold for good prices.

Rabbits are sold by the pound, and there were 43,596 pounds of fered. Lynx paws were sold with no regard to the rest of the animal and silver foxes are sold just as they went into Noah's cabin, one by one. And they are almost as scarce as when they came out of that famous craft.

The finest collections of Russian sables ever offered were sold and the highest brought \$759 for the raw skin.

An interesting thing discovered thru the sale is that the Eskimo is the largest consumer of the wolverine. The wolverine is the only fur that the Eskimo can use for the hood of his "capot", for it is the only fur that will not freeze when the breath strikes it.

Hudson Seal Higher. The last offering given was the popular "Hudson Seal." Owing to the large increase in demand, and to the "frozen winter" of two years ago, this fur also has jumped. The fact that the muskrats furnishing the "Hudson seal" were frozen winter before last is just now being realized in shortage and price.

The silver fox of the wild var-

ity in many instances did not reach the figure that the "farm silver fox" brought. These animals, with their coal black fur, the points tipped with white, are bred on a farm at Charlotte, Prince Edward's Island, Canada, and rival the original wild silver fox.

The largest number of skins of one kind were the squirrel pelts. There were 345,804. Next came the muskrat parcels, numbering 266,936 brown and 3,329 black; 238,760 mole skins, 3018 Russian sables, 82 panthers, 31 mountain lions and 585 kangaroos.

FIRST CHOICE

Alice is an eight-year-old youngster from the southern part of the state and her uncle recently brought her to the capital to see the monuments and other places of interest. The morning after his arrival he took her down town to the office of a friend, and introduced her around. "So you came to see Indianapolis," remarked one of the men. "I suppose you're anxious to begin. Which do you want most to see—the state house or the monument?"

Alice looked at him and then spoke truthfully. "Oh, I want to see both of them," she told him. "But most of all I want to go to one of those stores where you get an ice cream sandwich for a nickel."—Indianapolis News.

MADE HIM SECRETARY OF THE TREASURY

Speaker Carlisle's Genius as a Poker Player Won Fitting Recognition from Grover Cleveland

Henry Watterson in The Saturday Evening Post.

Mr. Cleveland was fond—not overfond—of cards. He liked to play the noble game, at say, a dollar limit—even once in a while for a little more—but not much more. And, as Dr. Norvin Green was wont to observe of Commodore Vanderbilt, "He held them exceeding close to his bosom."

Mr. Whitney, secretary of the navy in his first administration, equally rich and hospitable, had often "the road gang," as a certain group, mainly senators, was called, to dine, with the inevitable after dinner soiree or seance. I was, when in Washington, invited to these parties. At one of them I chanced to sit between the President and Senator Don Cameron. Mr. Carlisle, at the time Speaker of the House—who handled his cards like a child and, as we all knew, couldn't play a little—was seated on the opposite side of the table.

After a while Mr. Cameron and I began bulling the game—I recall that the limit was \$5—that is raising and back raising each other, and whoever else happened to be in, without much or any regard to the cards we held.

It chanced on a deal that I picked up a pat flush. Mr. Cleveland a pat full. The Pennsylvania senator and I went to the extreme, the President, of course, willing enough for us to play his hand for him. But the speaker of the house persistently stayed with us and kept on.

We could not drive him out. When it came to a draw Senator Cameron drew one card. Mr. Cleveland and I stood pat. But Mr. Carlisle drew four cards. At length, after much banter and betting, it reached a showdown, and, mirabile dictu, the speaker held four kings!

"Take the money, Carlisle," take the money," exclaimed the president. "If ever I am president again you shall be Secretary of the Treasury. But don't you

make that 4-card draw too often." He was president again, and Mr. Carlisle was Secretary of the Treasury.

SCHOOL TEACHERS ON STRIKE

From Indianapolis News. Linton, Ind.—Schools of Stockton Township outside Linton still are without instructors for the coming year, due to demands by a local union of teachers that they

receive an increase in wages. No person outside the union is to be hired, and that a five contract be signed.

The situation is admittedly serious and no progress has been made toward a solution. The question first came up weeks ago.

Prevent Spanish Influenza By Anointing Nose

Prominent Middle-West Health Official Makes Important Announcement in Connection with Treatment of Bronchial Troubles.

If you really have Spanish Influenza do not attempt self-treatment with home remedies. Go to bed immediately and call a physician at once.

But there are preventive measures which can prevent your being attacked by this malady. Men-Tho-Eze has proven efficacious in cases of the treatment of sore throat, la grippe, tonsillitis, bronchitis, colds and all troubles resulting from congestion of the lungs and bronchial tubes. Here is a plain statement on Spanish Influenza by the secretary of the Board of Health of a prominent middle-west state.

This physician maintains that Spanish Influenza is like sore throat, la grippe, tonsillitis, bronchitis, colds and similar troubles in that it is caused by infection of the nasal passages. He recommends preventing this—and hence, largely preventing Spanish Influenza and other maladies—by keeping the nasal membranes moist and pliable by means of some oily antiseptic application.

For such treatment Men-Tho-Eze is ideal. The goose grease and turpentine in this preparation serve as an ointment the wintergreen and menthol fumes which are breathed through the nose and bronchial tubes break the phlegm. The Men-Tho-Eze not only keeps the membranes healthy and throw off germs, but it breaks up a cold which may develop into Spanish Influenza some other serious trouble.

Men-Tho-Eze is a scientific combination of grandmother's fashioned goose grease and the medical of China, which gave us green and menthol. It has proven a remarkable remedy for colds, catarrh and la grippe. Others have been received from Spanish Influenza sufferers who used Men-Tho-Eze with best results.

Men-Tho-Eze should be in the home. An application in the nose often saves a doctor bill. In opal jars, 30c and 60c.

Have You Examined

A Smart Five-Passenger Model of
the Light Car Men Praise so Highly

The Essex Sedan?

You must have seen this dainty new Essex.

More than a thousand are in service.

You Will Recognize It
at a Glance

It comes in the same beautiful green that distinguishes the Essex touring car. The body is simple with the newest square lines, low roof, but with ample head room, wide doors, deep seats and high backs.

Has Large Car Comforts
With Small Car Costs

For one reason, men speak of the Essex as they do, because of its costly car finish and equipment. The Essex has no useless length or weight and no sacrifice has been made in any of the comforts. It has all the passenger space that larger cars afford.

You have but to ride in an Essex to know its comfort. There is the large car's solidness about it that removes all sense of its weight or size.

And yet its size gives distinct advantages.

It makes the Essex easy to drive. It can be steered with two fingers. It can be turned in a short radius, parked in a small space, and of course there is an immense saving in operating costs.

And, too, its size accounts for its costly car quality at a moderate price.

It Is Just as Lively
as the Other Essex

Many will tell you the fastest automobile ride they ever enjoyed was in an Essex.

Others say it is the quickest and liveliest car in acceleration they know. We leave it to the Essex to reveal those qualities.

But rest assured it is not sluggish. It gives way to no car where acceleration, speed and comfort of driving and riding are concerned.

The season when the Sedan will be most enjoyed is approaching. So you should speak for your Essex without delay. The one thousand in service, to say nothing of ten times as many touring models in use indicates a continued Essex shortage.

Corns 'Tween Toes? Use Easy "Gets-It"

Any Corn or Callus Comes Off Peacefully, Gloriously. Never Fails.

It is easy for "Gets-It" to reach "tween-toe" corns, and better yet, it is easy to remove them, because "Gets-It" makes them come

Any Corn Peel Off With "Gets-It"

right off just like a banana peel. You can try to dig or drag out your corns with a knife, or slice them with a "bloody" razor, or use bandages and tape and wrap up your foot into a package, but that's the "treat-em-tough" painful, foolish way. Use 2 or 3 drops of "Gets-It"—that's the peaceful, sure, common-sense way that never fails. You reach the corn easily with the little glass rod in the cork of every "Gets-It" bottle. It does not hurt the true flesh. Try it, trot and smile! It's a blessing, never fails. "Gets-It" the only sure, guaranteed, money-back corn-remover, costs but a trifle at any drug store. MFD by E. Lawrence & Co., Chicago, Ill. Armstrong's Drug Stores

"ONLY ONE THING BREAKS MY COLD!"

"That's Dr. King's New Discovery for fifty years a cold-breaker"

NOTHING but sustained quality and unflinching effectiveness can arouse such enthusiasm. Nothing but sure relief from stubborn colds and onrushes of new ones, gripe, throat-tearing coughs, and croup could have made Dr. King's New Discovery the nationally popular and standard remedy it is today. Fifty years old and always reliable. Good for the whole family. A bottle in the medicine cabinet means a short-lived cold or cough, 60c. and \$1.20. All druggists.

Regular Bowels Is Health

Bowels that move spasmodically—free one day and stubborn the next—should be healthfully regulated by Dr. King's New Life Pills. In this way you keep the impurities of waste matter from circulating through the system by cleansing the bowels thoroughly and promoting the proper flow of bile.

Mild, comfortable, yet always reliable, Dr. King's New Life Pills work with precision without the constipation results of violent purgatives. 25c. as usual at all druggists.

FINANCIAL AND COMMERCIAL

The Pacific Development Company has increased its dividend rate from 7 to 8 per cent.

Joseph T. Ryerson & Son of Chicago have taken over the Buffalo warehouse properties of the Furguson Steel and Iron Company.

Stockholders of the Bristol Brass Company of Bristol, Conn., have authorized an increase in the capital stock from \$1,500,000 to \$3,000,000.

Lewis Harriman, formerly with the Guaranty Trust Co., New York is now vice president and a director of the Fidelity Trust Co., of Buffalo.

The Goodyear Tire and Rubber Company has called for redemption on Nov. 1 at 105 its outstanding second preferred stock, amounting to \$13,000,000.

The Government Sale of oil land leases on the Osage Indian reservation brought in \$5,500,000. The Marland Refining Company paid \$2,500,000 for leases on 4,800 acres.

McCormick & Co., of Baltimore, chemical manufacturers and importers of spices and tea, have final specifications for their new building which will cost about \$2,500,000.

The National Tea Company reports sales for the first eight months of the present year are running approximately 40 per cent ahead of those in the corresponding period last year.

Edward W. Beatty, president of the Canadian Pacific Railway Co., has announced that the company will spend more than \$2,000,000 in the extension of the Chateau Frontenac Hotel at Quebec.

Shawmut Steamship Co., has increased its capital from \$2,300,000 to \$4,000,000, and will decrease the par value of shares from \$100 to \$25. Four new shares for each share now held.

FOR BURNING ECZEMA

Apply Zemo the Clean, Antiseptic Liquid—Easy to Use—Does Not Stain

Greasy salves and ointments should not be applied if good clear skin is wanted. From any druggist for 35c, or \$1.00 for larger size, get a bottle of Zemo. When applied as directed it effectively removes eczema, quickly stops itching, and heals skin troubles, also sores, burns, wounds and chafing. It penetrates, cleanses and soothes. Zemo is a clean, dependable and inexpensive, antiseptic liquid. Try it, as we believe nothing you have ever used is as effective and satisfying.

"Gee-Whiz! How it Hurts—The Pain in My Foot!"

Sometimes it is in my arm. Merciful heaven, how my back hurts in bending! It's all due to an over abundance of that poison called uric acid. The kidneys are unable to get rid of it. Just co. kidon, you can readily overcome an aching life by taking the advice of Dr. Pierce, who says: "Keep the kidneys in good order." Avoid too much meat, alcohol or tea. Drink plenty of pure water, preferably hot water, before meals, and drive the uric acid out of the system by taking "uric." This can be obtained at almost any drug store.

Send a bottle of water to the chemist at Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., and you will receive free medical advice as to whether the kidneys are affected. When your kidneys get sluggish and clog, you suffer from backache, ick-headache, dizzy spells, or twinge and pains of lumbago, rheumatism or gout; or sleep is disturbed two or three times a night, take heed, before too late let Anuric (anti-uric-acid), for it will put new life into your kidneys and your entire system. Ask your nearest druggist for it or send Dr. Pierce ten-central package.

Denmark, Holland, Switzerland, Spain and others who are invited and probably will join the League of Nations.

Before such a powerful force even Imperial Japan will quail, and WE WILL NEED NO WAR.

Better have Japan in the League, under solemn obligation to keep her word, than have Japan driven out of the League to roam at large without let or hindrance like a beast of prey.

The argument is based entirely on Senator Lodge's speech describing the terrible danger of a future attack from Japan.

Gasoline Automobiles Made Into "Steamers"

That's the latest in the motor car world, and dozens of car owners are revealing an unusual interest in Joy Brother's Garage to find out how it is accomplished.

"They come in smoking from wasted gasoline and wasted lubricants and go out steaming with efficiency," Mr. Joy asserted. "We actually put steam into the gasoline and really make gas cars into steamers."

Mr. Joy, who is technically trained in engineering, had long known the necessity of getting moisture into the automobile engine. He searched the country for something to do this properly, and finally found it. The process is made possible for owners by the Automatic Carburetor, for which the garage has the exclusive agency here. Owners of cars assure the automobile expert the carburetor does more than he claims for it.

"The steam carburetor, for which automobile experts have labored for years, gives the automobile continuously the effects which the owner notes now on a rainy day," Mr. Joy said. "It puts live steam into the gasoline vapor. The steam, as automobile men know, eliminates carbon completely and keeps it

out of the motor. In addition it increases the mileage from the fuel by 30 per cent and increases the power of the motor 10 per cent. Cars that have trouble climbing hills now will fairly scoot over them when the steam is put in as this carburetor puts it in.

"This carburetor, which does not replace the regular carburetor, but operates with it, is one of the greatest advances in engineering the automobile world has produced in years. Every owner who has seen it in operation has wanted one. I am getting them for Jacksonville owners as fast as the factory can supply me with them and owners find the carburetor surpasses anything they anticipated it would do. It is a remarkable efficiency maker for any automobile."
